

WELLHEAD BOOM TRUCK OPERATOR COURSE APPLICATION FORM

Please print clearly. All information is required.

The Energy Safety Canada (ESC) Wellhead Boom Truck Operator (WHBT) course is the technical training component for candidates pursuing apprenticeship in the WHBT trade. Candidates wishing to pursue an apprenticeship in the WHBT trade must first submit a completed Apprenticeship Application Form to Alberta Apprenticeship and Industry Training (AIT) for approval. Application forms and additional information on the WHBT trade are available from any AIT office or at Trade Secrets Alberta.

Once registered with AIT and approved as a registered apprentice, the candidate may apply and register for the ESC WHBT course by filling out the below application. If there are any issues with the candidates Alberta Apprenticeship ID Number, ESC cannot register the candidate until the issue is resolved with AIT, by the applicant or sponsor.

- Submit this application to whbt@energysafetycanada.com
- Upon email notification response from ESC that this application is approved, please contact ESC Enrolment Services, to register into an upcoming WHBT course. Available course dates can be found [here](#).
 - ESC Enrolment Services - 1.800.667.5557 or customer.service@energysafetycanada.com
