

JIM GREENWOOD

VICE PRESIDENT, OPERATIONS

As Vice President, Operations, Jim is responsible for ensuring operational excellence at Energy Safety Canada.

Jim has a wealth of experience in the oil and gas services sector, having spent more than 20 years in progressively senior quality, health, safety and environment management roles. He has a track record of driving performance improvement and strong operational leadership.

As a vice president with Trican Well Service Ltd., Jim was responsible for developing a global vision and strategy for service quality, safety performance improvements and environmental management. As Health, Safety and Environment Director at Baker Hughes Canada Company, Jim oversaw the integration of HSE organizations and implemented a harmonized health, safety and environmental management system following the acquisition of BJ Services Company. Most recently, as Director of Quality, Health, Safety and Environment at Acciona Infrastructure Canada, in Fort St. John, BC, he led a team of more than 100 professional and technical personnel in providing quality, health, safety, environmental and information management services.

Jim's holds a bachelor's degree in biochemistry from the University of British Columbia and a certificate in Business Essentials from the University of Calgary's Haskayne School of Business. He is currently working on a master's degree in occupational safety and health from Columbia Southern University. Jim is a Canadian Registered Safety Professional (CRSP).
