1.0 ABOUT THIS PROCEDURE

1.1 Purpose and Direction

The auditor has a responsibility to register each audit with Energy Safety Canada prior to its start date. The Audit Registration System (ARS) provides support, guidance and enhanced customer service to both the employer and auditor. The system also enhances Energy Safety Canada's ability to manage its resources, as it tracks the approximate submission date of each audit.¹

1.2 Scope

This procedure applies to employers who wish to certify, recertify or maintain their certification. It does not apply to Action Plan or Safety Surveys performed in lieu of a maintenance audit.

This procedure also applies to SECOR employers who wish to hire an Energy Safety Canada external auditor to perform their SECOR audit.

For information on registering an audit as a SECOR assessor, see SECOR Assessor Audit Registration².

1.3 Target Audience

The target audience for this document is all Energy Safety Canada personnel in any work location. This includes Employers and Auditors.

2.0 PROCEDURE

2.1 The auditor must be current in training requirements and in be good standing with Energy Safety Canada.

2.2 The auditor is responsible to complete the following regarding audit registrations:

- Log into the auditor portal from the Energy Safety Canada website to access the ARS
- Conduct a preliminary discussion with the employer to determine type of work, sampling, audit cycle, type of certification and other necessary information for pre-audit scope.
- Obtain accurate WCB information from the employer prior to registration
- Confirm auditor number of any team auditors prior to registration if applicable
- Ensure auditor(s) certification is current; registrations will not be accepted if the certification is expired.
- Register all audits with Energy Safety Canada prior to starting the audit. The auditor cannot begin the audit until they have received a notification of audit registration and a license key

Sensitivity Level: Public

Current approved documents are maintained online. Printed copies are uncontrolled.

- Communicate fee structure to the company
- Provide the purchase order number if the company is using a purchase order
- Ensure someone other than the auditor has been designated as the company contact
- Notify Energy Safety Canada of any changes or cancellations, as soon as they occur, to the original approved audit registration. Details must be given by clicking on the Change Request button within the Auditor Portal

3.0 ROLES AND RESPONSIBILITIES

Auditor	<ul style="list-style-type: none"> • Ensure their status as a certified auditor is current • Be available to conduct the audit in its entirety • Register the audit prior to the planned start date • Considerations should be made when selecting a start date to allow enough time for the following: <ul style="list-style-type: none"> ○ For non-member employers, to make necessary payment to Energy Safety Canada ○ For Energy Safety Canada to perform required quality assurance checks on the audit registration • Assess requirement for additional applications for team audit, audit plans, or one audit covering multiple companies • Provide information in a timely manner as requested by Energy Safety Canada to assist with the audit registration process • Notify Energy Safety Canada of any changes or cancellations, as soon as they occur, to the original approved audit registration using the auditor portal
Employer	<ul style="list-style-type: none"> • Have an active health and safety management system in place • Select a qualified Energy Safety Canada auditor who is available to conduct the audit in its entirety, from the approved auditor list • Ensure all contractor hiring procedures are followed including having a written agreement on the contract details when hiring an External Auditor. • Provide the auditor with current and accurate WCB account information, audit cycle, purchase order number, and worksite and employer information, which are required at the time of registration • Submit fees to Energy Safety Canada once notification of registration is received. Delayed payment of fees will result in a delay of the audit commencement

Sensitivity Level: Public

Current approved documents are maintained online. Printed copies are uncontrolled.

	<ul style="list-style-type: none"> • Remain engaged in the audit process to ensure the audit is conducted and submitted within the program requirements as per the contract details agreed to with the auditor • Assign a key staff that is knowledgeable of the health and safety system to be the key contact for the auditor for the duration of the audit
<p>Energy Safety Canada</p>	<ul style="list-style-type: none"> • Perform a Quality Assurance (QA) review on the submitted audit registration to check for: <ul style="list-style-type: none"> ○ Auditor credentials ○ Company information ○ WCB account validation ○ Audit type ○ Member/non-member status ○ Assess requirement for additional applications for team audit, audit plans or one audit covering multiple companies • Request any missing or additional information from the employer and/or auditor • Register the required information with online systems of the applicable government body • Review and process the audit registration in a timely manner, including invoicing and sending payment required notices to the employer • Communicate audit registration approval or non-approval to the employer and auditor • Provide the license key to the auditor
