

## Pressure Release Inspection

DESCRIPTION							
Date Started:		/ / Year Month Date		Date Completed:		/ / Year Month Date	
Main Purpose for the Inspection:							
Employee Name:				Checked By:			
Function Area:				Associated Areas:			
PRESSURE RELEASE							
A - Acceptable, NI - Needs Improvement, U - Unacceptable, N/A - Not Applicable							
No.	Item Description	A	NI	U	N/A	Comments	
1	The FLHA identifies stored energy hazards and control methods (e.g. body position, verify zero energy)						
2	Stored energy sources are identified and controlled						
3	Appropriate equipment is available and used to verify zero energy						
4	Controls are in place to protect personnel in vicinity of stored energy (e.g. whip checks, exclusion zones)						
5	Discharge points adequately designed to keep all personnel out of the line of fire (e.g. blow down)						
6	Maximum allowable operating pressure is known for the equipment and proper safeguards are in place						
7	PPE is appropriate to mitigate any secondary hazardous energy (chemical, temperature, sound, etc.)						
8	(add as appropriate)						
9	(add as appropriate)
