

LIFE SAVING RULES

STATEMENT OF COMMITMENT

THIS CERTIFICATE IS IN RECOGNITION THAT:

commits to the adoption, implementation and use of Energy Safety Canada’s Life Saving Rules in accordance with the guiding principles and terms and conditions detailed in the Industry Accepted Standard. Life Saving Rules are a means of protecting the health and safety of the individual by significantly reducing the risk of injury associated with “rule confusion” between different companies by focusing on critical hazards and work activities.

GUIDING PRINCIPLES:

STANDARDIZATION

companies agree to adopt and not alter the rule’s logos or descriptions

SUPPORT

companies will support workers and supervisors in the adoption, use and on-going management of the rules

ACCOUNTABILITY

companies acknowledge that any breach of the rules is unacceptable and will investigate infractions and take appropriate action when rules are violated

CONTINUOUS IMPROVEMENT

companies will monitor, report and evaluate their programs for improvement in safety performance

SHARED LEARNING

companies will report, share lessons learned and best practices through Energy Safety Canada
