

## Moving Objects Inspection

| DESCRIPTION  |   |       |      |   |                   |            |
|--|---|-------|------|---|-------------------|------------|
| Date Started:  | / /   |       | Date |   | Date Completed:   | / /        |
|  | Year  | Month |      |   | Year              | Month Date |
| Main Purpose for the Inspection:   |   |       |      |   |                   |            |
| Employee Name:   |   |       |      |   | Checked By:       |            |
| Function Area:   |   |       |      |   | Associated Areas: |            |
| MOVING OBJECTS   |   |       |      |   |                   |            |
| A - Acceptable, NI - Needs Improvement, U - Unacceptable, N/A - Not Applicable |   |       |      |   |                   |            |
| No.  | Item Description  | A     | NI   | U | N/A               | Comments   |
| 1  | The FLHA identifies striking hazards and control methods (e.g. body position, guarding, LOTO) |       |      |   |                   |            |
| 2  | Controls in place to protect personnel in vicinity of moving objects                          |       |      |   |                   |            |
| 3  | Exclusion zones (no-go zones) established and adhered to                                      |       |      |   |                   |            |
| 4  | Equipment turned off and locked out (LOTO)  |       |      |   |                   |            |
| 5  | Equipment guards in place for rotating equipment, conveyor belts, hydraulic rams              |       |      |   |                   |            |
| 6  | Personnel are using tag lines or push polls with suspended loads                              |       |      |   |                   |            |
| 7  | Personnel are not in the line of fire during loading and unloading activities                 |       |      |   |                   |            |
| 8  | Personnel are not in the line of fire of swinging hand tools such as hammers, etc.            |       |      |   |                   |            |
| 9  | Personnel position themselves to avoid any tension releases (stored energy) in equipment      |       |      |   |                   |            |
| 10   | (Add as appropriate)  |       |      |   |                   |            |
| 11   | (Add as appropriate)  |       |      |   |                   |            |
